45.

FortyFive

Mastering the IB Diploma. Nothing else.

Courses led by people who scored 7s, checked tutors, coursework coaching inside the IB's rules, and free tools. Only the IB, forever. Starting in India.

Devansh Rathod, founder · devanshtrathod@gmail.com · Pitch, October 2026

Not affiliated with or endorsed by the International Baccalaureate Organization.

THE PROBLEM

The IB is hard. Getting good help is harder.

₹1k-9.5k

an hour for IB tutoring in India, and no way to check a tutor's real IB score.

18-33%

of every lesson taken by the big tutor marketplaces. Preply keeps the whole first lesson with each new student.

6 + 4

six subjects plus the IA, EE, TOK and CAS, deadlines that land together, and parents who never sat the IB.

Tutoring rates: TutorChase and Tutopiya India listings. Marketplace fees: Preply help centre and tutor reports, Wyzant fee page (2026).

Who it's for

196 Diploma schools in India, and a world that sits the IB in November too

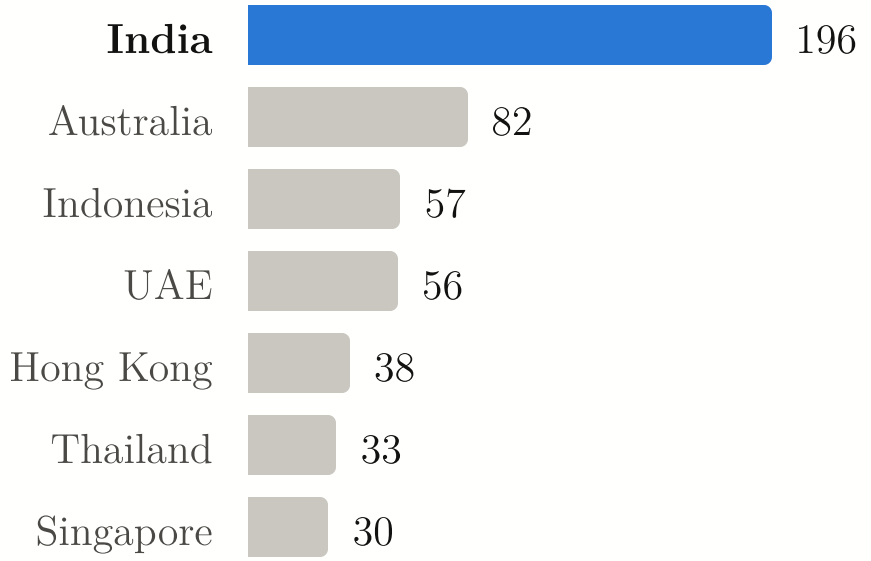

~12,500 students in the Diploma in India at any time

6,265 DP and CP results in India in May 2026, up 3%

3 Indian Diploma schools sit the November session, like ours

433 Diploma schools in the 20 countries we mapped next, **109** of them in November

IB Diploma schools by country, the markets we mapped

School counts and exam sessions: IB "Find an IB World School" directory, October 2026. Results: Free Press Journal, IB results 2026.

Three things, one honest platform

Free tools

A grade predictor with official boundaries, a planner that finds your cheapest next point, a revision timetable maker and a results-day guide. Free for everyone, no account needed.

Courses

One paper or one subject from the first lesson to exam day: short videos, protected notes, original practice and a predicted mock. Each led by someone with a verified 7. ₹1,499, or free for anyone who asks.

Verified tutors

IB graduates and teachers, checked, scores verified against IB results. Graduates still 17 need a 7 and a parent's sign-off. Students search or post what they need. Tutors keep 90%, and coach coursework by the IB's rules.

Why it's different

We only do the IB, so we can master it.

Only the IB, forever

Every criterion, every paper since 2020, every boundary, both sessions. Deeper, never wider.

Your next point

A planner that reads the grade boundaries and shows where your next point is cheapest, and what to skip.

Verified 7s

Every lead and tutor checked against official results. Graduates come back to teach the next batch.

A public scorecard

After every session we publish which predictions came up, and which missed.

November, first-class

Predicted papers and courses for the session most products ignore.

Calm, not loud

No sales calls, streaks, countdowns or chatbots. Free for anyone who asks.

Results figure: IB news release, July 2026.

How a student uses it

From "I'm stuck" to a better mark, in five steps

1

A free tool shows Economics Paper 1 is the cheapest place to win her next point.

2

She takes the course on Paper 1 essays: diagrams, real-world examples, evaluation.

3

She gets stuck on evaluation and posts a request: two hours a week, up to ₹1,000.

4

A tutor with a verified 7 replies with a plan. Her parent books, and can see every message.

5

After the lesson she leaves a review that only a real student can leave.

Courses make the marketplace useful from day one. The marketplace makes the courses worth more.

HONEST BY DESIGN

Every rupee accounted for, on every booking

Where ₹1,000 of a lesson goes

Student pays	**₹1,000.00**
Tutor gets (90%)	₹900.00
FortyFive's fee (10%)	₹100.00
GST on the fee	₹15.25
Razorpay payment and transfer fees	₹26.26
Left for FortyFive	**₹58.49**

✓ **One fee.** No membership, no lead fees, no first-lesson grab.

✓ **Every score checked** against the official IB results document.

✓ **Reviews only from real lessons.** Tutors can't delete them.

✓ **Nobody pays to rank higher.** No fake urgency, no grade promises.

✓ **Open books** every quarter: what came in, what tutors earned, what it all cost.

Safe by design

Teaching teenagers online: the rules come first

Under-18 tutors

Graduates still 17 need a verified 7 and a parent who co-signs and sees their lessons too.

Checked

ID and background check, verified IB results, a teacher's reference and a demo lesson.

On the platform

Lessons and chat stay on FortyFive. Phone numbers and social handles are hidden.

Parents see everything

Every booking and message, and they can join any lesson. Lessons 7 am to 9 pm only.

A named adult lead

A report button everywhere. Concerns go straight to the police, as POCSO requires.

Coursework, by the rules

Coaches teach and never write or edit anyone's IA, EE or TOK. Every session is logged.

Coursework help, inside the IB's rules

Coaching, by the hour

✓ Coaches teach the skills and ask the questions. They **never write, edit or mark up** the work.

✓ A hard limit on each piece: 4 hours for an IA, 6 for the EE.

✓ Every session recorded, with a help log for the supervisor.

✓ Coaches keep 85%. The extra 5% pays for integrity reviews.

The Marker: an AI that writes nothing

✓ A band and its evidence for every criterion, and questions to ask yourself.

✓ Two checks a piece for ₹499, free if you ask. Files deleted in 48 hours.

✓ No chat, no rewritten text, no grade promises.

✓ **Accuracy against real IB marks, published** for every subject.

The IB treats help beyond its subject guidelines, and work produced even partly by AI, as not the student's own (Academic integrity policy, Appendix 6).

Built for my own November 2026 exams

2020-26

Every paper since 2020, in six subjects, mined for patterns.

16

predicted papers with sealed markschemes, written from scratch.

~600

pages of original toolkits: formulas, formats, model answers.

1

free grade predictor using official boundaries, May 2019 to Nov 2025.

The machine matters more than the files: pattern mining, a predicted-paper builder with an originality check, and a print-quality build system. New subjects and new sessions reuse it.

How it pays its way

Four sources of income, none of them hidden

Courses

₹1,499

per course, GST included. One in five places given free to anyone who asks.

Lessons

10%

of each lesson, so tutors keep 90%. Coursework coaching: 15%.

Schools

₹1,500

per DP student a year, plus GST. The first season is a free pilot.

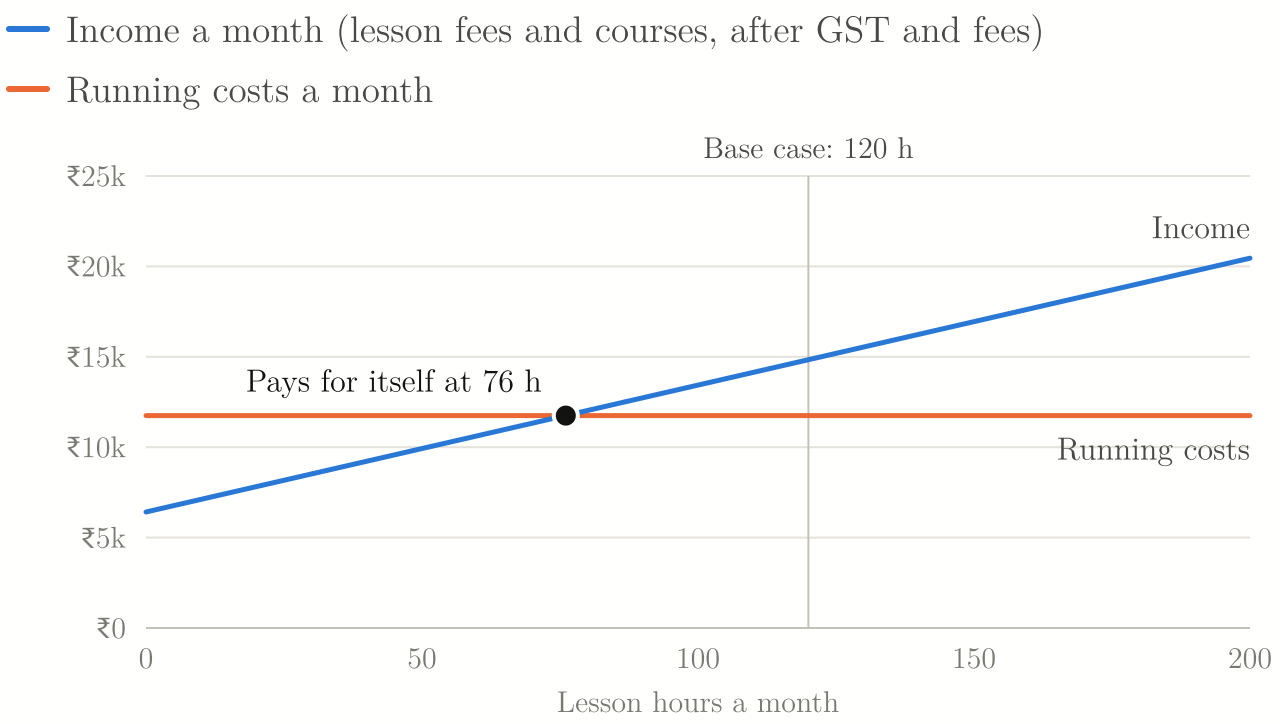

Sponsors

₹75k

funds 50 free course places, named publicly, with no student data shared.

× Never: paid listings, lead fees, ads aimed at students, selling data, or commissions from universities and agents.

A passion project that has to pay its own bills

76 lesson hours a month and FortyFive covers its running costs. The base case has 120.

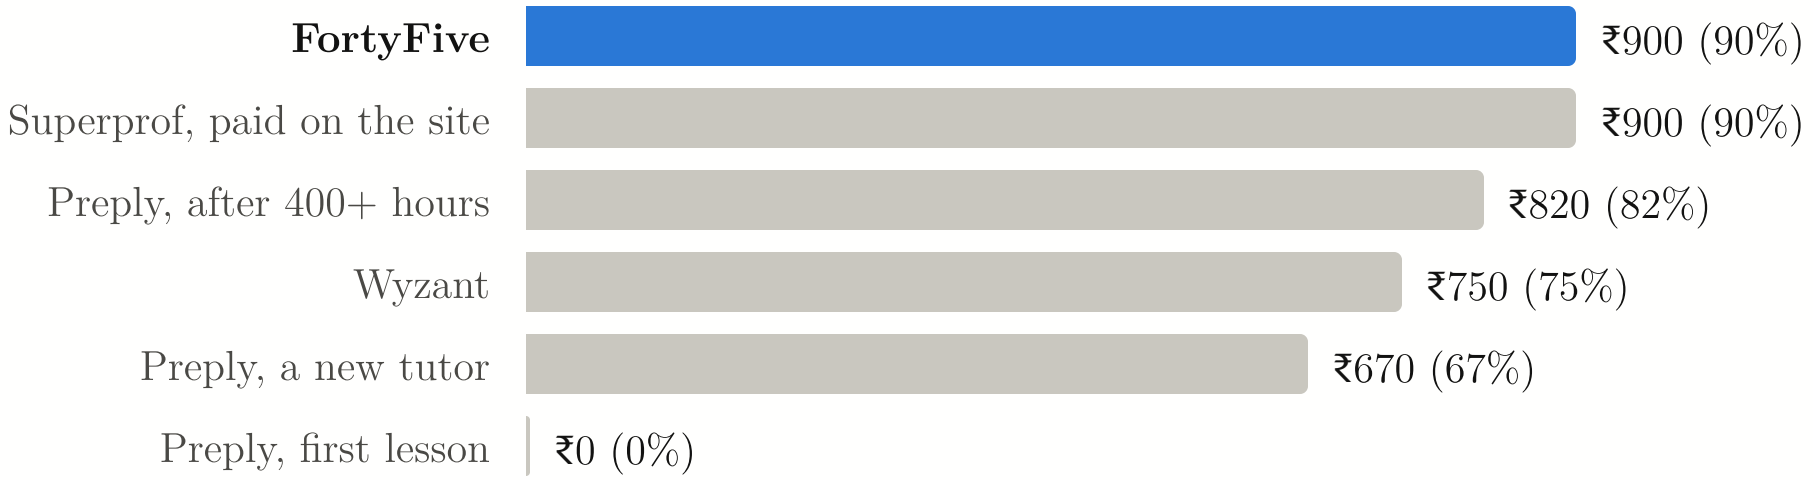

₹10.4 lakh earned by tutors in year one, base case.

₹31.7k short in year one, and ₹35k of that is one-off set-up (lawyer, recording kit).

₹5-8k a month to run the platform once it's live.

Base case: 15 tutors teaching 8 hours a month at ₹1,200, 120 course places. Includes 18% GST, Razorpay fees, checks, hosting and a CA.

What a tutor keeps from a ₹1,000 lesson

Superprof also charges students a monthly pass to message tutors; Wyzant adds a 9% service fee. Preply's 18% tier after 400 hours is reported by tutors. Sources: Preply help centre, Pensight, Wyzant and Superprof pages (2026).

For schools

A free pilot first. A fair price after.

What your school gets

- ✓ Every FortyFive course for every DP student
- ✓ A list of checked tutors you can point parents to
- ✓ Predicted mock papers for your own mocks (optional, ₹40,000 a season)
- ✓ Parent evenings on how the Diploma works

How it works

February to March 2027: free pilot for your DP1s before their end-of-year exams

Then: ₹1,500 per DP student a year, plus GST, minimum ₹30,000

Never: anyone writing or editing coursework, IB past-paper material, or student data used for anything else

For partners and sponsors

Fund the free places. Your name goes on them, nothing else.

₹75,000 funds 50 free course places for a term

₹25-50k sponsors a series: results-day help, Mock Days, university Q&As

CAS board: real volunteering places with NGOs that have child-protection policies

Universities: free admissions webinars for students and parents

The rules every sponsor signs

Named publicly on the open-books page

No student data, no tracking, no targeting

No say over courses, tutors or rankings

No agents or counsellors paid per student

Start free, earn trust, then grow

Nov-Dec 2026

Free tools and a results-day guide for 16 December

Jan 2027

10 founding tutors across the 8 biggest subjects, checked and verified

Feb-Mar 2027

Free pilot of two courses in partner schools

Apr 2027

Open across India: paid courses, lessons, coursework coaching

2027-28

School plans, more subjects, the Gulf and November-session schools

2028 on

Asia, Africa, Oceania; a non-profit arm for free places

It is built to keep running after I leave for university: campus leads, subject leads, and written playbooks for every job.

Who's behind it

A student who built the tools he needed, with adults where it counts

Devansh Rathod

Founder. IB Diploma student, November 2026 session. Built the pattern analysis, predicted-paper pipeline and grade predictor. Runs community operations for Atomik, a creator-marketing company.

[Parent's name]

Director of the registered business and the named safeguarding lead. Signs contracts and handles payments.

Course leads and advisers

2026 graduates with verified 7s, recruited from results day on 16 December, plus an IB teacher, a CA and a lawyer as advisers.

The ask

Three ways to help, starting now

Schools

Let us run a free pilot for your DP1s in February and March 2027. Fifteen minutes to see it.

Sponsors

Fund 50 free course places for ₹75,000, named publicly, with nothing else attached.

IB graduates

Got a 7? Lead a course for 70% of what it earns, or tutor and keep 90%.
